BILLAL HOSSAIN

UX Designer & UI Developer

My goals are making a product useful, usable and delightful. Providing a user experience that respects people and their time. I try to establish key issues, finding the perfect balance between user needs and business goals, as well as between design and technical aspects.

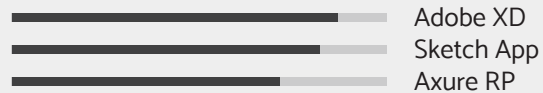

I have an excellent grip on UI development considering responsive, code optimization, page speed, SEO etc. I am a fan of new technologies and able to adapt myself promptly.

AREAS OF MY EXPERTISE

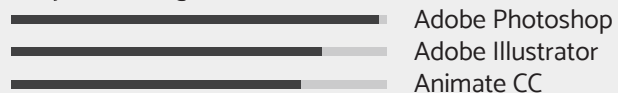

- Wireframing, Prototyping & A/B Testing
- Effective Visual Design
- User Interface Development
- Search Engine Optimization(SEO)
- Conversion Rate Optimization
- WordPress Development
- Angular 4

TECHNOLOGY EXPERTISE
